| ✓ Typescript   | ✓ PostgreSQL    | ✓ AWS          |
| ✓ Native Base  | ✓ Socket.io     | ✓ Material UI  |
| ✓ Bootstrap    | ✓ Supabase      | ✓ Figma        |
| ✓ Postman      | ✓ JIRA          | ✓ RESTful APIs |

## WORK EXPERIENCE

### Ccript Agency | Employee

Full Stack Engineer | Dec 2024 - Present

- Led multiple projects as both **Project Lead and Team Lead**, ensuring timely delivery and quality standards.
- Developed and deployed scalable web and mobile applications tailored to client needs.
- Managed a team of developers, fostering collaboration and efficient workflows.
- Maintained direct communication with clients to gather requirements, address queries, and provide regular updates.
- Ensured alignment between client expectations and project deliverables through effective planning and execution.
- Demonstrated expertise in full-stack development, leveraging modern technologies to create innovative solutions.

### Tech Solutions Pro | Employee

React native Developer | Sep 2024 - Dec 2024

- Developed a cross-platform application ensuring seamless performance on both Android and iOS devices.
- Integrated REST APIs to enable efficient communication between the application and backend services.
- Collaborated directly with clients to gather requirements, address concerns, and deliver high-quality solutions tailored to their needs.
- Utilized React Native and Native Base to build efficient and responsive user interfaces.

## **Texinity Technologies | Employee**

MERN Stack Developer | Aug 2022 - July 2023

- Designed, developed, and deployed multiple MERN Stack applications using React Native, MongoDB, Express.js, and Node.js, ensuring scalability and performance.
- Wrote clean, efficient, and maintainable code to deliver seamless user experiences across platforms.
- Collaborated with cross-functional teams, utilizing Git for version control to streamline development workflows and coordinate updates effectively.

## **Arbisoft Islamabad | Fellowship**

Full Stack Developer | July 2023- Oct 2023

- Built and maintained a Next.js front-end integrated with a Django back-end, leveraging TypeScript and SCSS for enhanced functionality and styling.
- Implemented CI/CD pipelines using GitHub Actions to automate testing, building, and deployment processes, ensuring faster and more reliable releases.
- Worked closely with senior developers to optimize application performance and scalability.

## **Fleact Tech. | Contract**

Full Stack Developer | Feb 2024 - Mar 2024

- Developed a mobile application using React Native, Redux, TypeScript, and Firebase, ensuring responsive UI/UX with Tailwind CSS.
- Integrated Firebase for backend services, including authentication, real-time database management, and cloud functions, ensuring robust application functionality.
- Collaborated with stakeholders to refine requirements and deliver a product aligned with business goals.

## **Texinity Technologies | Internship**

React native Developer | July 2022 - Aug 2022

- Developed a mobile application using React Native for a company product, implementing local data storage to enhance user experience and functionality.
- Demonstrated adaptability by quickly learning and applying new technologies and frameworks to meet project requirements.
- Worked under mentorship to improve coding practices and contribute effectively to the development process.

## **Freelance**

Full Stack Developer | Nov 2023 - Jun 2024

- Delivered high-quality solutions for multiple client projects, including web and mobile applications, tailored to meet specific requirements and business objectives.
- Maintained strong communication with clients to understand their needs, provide regular updates, and ensure timely delivery of projects.
- Applied expertise in full-stack development to create scalable and efficient applications, leveraging modern technologies and frameworks.

---

## **EDUCATION**

**COMSATS Institute of Information Technology, Islamabad | Sep 2020 – Sep 2024**

Bachelor of Computer Science

---

---

## PROJECTS

---

### ✓ Deck Stain Help

<https://apps.apple.com/us/app/deck-stain-help/id6744977187>

Developed and deployed a cross-platform mobile app with AI tools, educational content, and WooCommerce integration to assist users in deck restoration and stain selection.

### ✓ Current Energy

<https://app.currentenergycrm.com>

Developed a custom web dashboard to display real-time HubSpot CRM data, focusing on Residential Solar Pipeline deals, with a chat feature for seamless communication between admins and deal owners.

### ✓ Digital Tasbeeh

<https://play.google.com/store/apps/details?id=com.texinity.DigitalTasbeeh>

Developed an Islamic app for Duas, Tasbeehat, Namaz, and Quran Pak, including a feature for keeping track of tasbeehat and Namaz.

### ✓ Maelano

A feature-rich e-commerce app, inspired by Amazon and Daraz, offering a seamless shopping experience with product browsing, secure payments, and user-friendly navigation.

### ✓ NameMaster

<https://play.google.com/store/apps/details?id=com.namemaster>

**This application is currently deployed in internal testing mode.**

Developed a name-guessing game to help users learn company employee names, featuring three different games with scoring mechanisms.

### ✓ MenaTCP

A student learning app offering free courses, with features for chatting with instructors and posting, commenting, liking, and sharing thoughts similar on social media applications.

### ✓ Azgarty

Developed a MERN stack application that merged a Unity game with refer-and-earn features, including tournaments and prizes.

### ✓ Study Buddy

Developed a kids' learning app with multiple choice questions, matching columns, and a parent portal for adding children and tracking their activity and progress.

### ✓ Yuzu

A multi-service booking application with Firebase authentication and profile management, using Google Maps for location-based bookings.

### ✓ Pedometer

A step-tracking app that calculates calories burned and distance covered based on the number of steps and user metrics like height and weight.
