ABOUT ME

I am a passionate MERN Stack Developer with nearly 2 years of experience. I have expertise in React, React Native, Next.js, Typescript, Tailwind CSS, NodeJS, ExpressJS, MongoDB, and Redux. I have strong communication and teamwork skills and I'm comfortable working independently and with a team. I always seek new challenges and opportunities to improve my skills and contribute to dynamic teams.

SKILLS

- React Js
- React native
- Firebase
- Next JS
- Django
- Figma
- MongoDB
- Node JS
- Express JS
- Redux
- Redux toolkit
- Git / GitHub

PROFESSIONAL EXPERIENCE

Texinity Technologies | Employee

MERN Stack Developer | Aug 2022 - July 2023

- Developed and deployed three MERN Stack (MongoDB, Express.js, React Native, Node.js) applications, writing well-designed and efficient code.
- Provided ongoing maintenance and enhancements, ensuring optimal performance and user experience, and utilized Git for efficient project management and collaboration.

Arbisoft Islamabad | Fellowship

Full Stack Developer | July 2023- Oct 2023

- Developed and maintained front-end features with Next.js, TypeScript, and SCSS, ensuring a seamless user experience, and handled back-end development with Django.
- Collaborated with the project team, delivering solutions timely, and ensured code quality through regular reviews and testing.

Texinity Technologies | Internship

React native Developer | July 2022 - Aug 2022

- Developed a mobile application using React Native for a company product, implementing local data storage to enhance user experience.
- Demonstrated adaptability and quick learning in adopting new technologies and frameworks.

RELEVANT PROJECTS

Fleact Tech.

MERN Stack Devloper | Feb 2024 - Mar 2024

- Focused on a single project, developing a mobile application using React Native, Redux, TypeScript, and Firebase, ensuring responsive UI/UX with Tailwind CSS.
- Utilized Firebase for backend services, including authentication, real-time database, and cloud functions.

Freelance
MERN Stack Developer | Nov 2023 - Present
- Successfully completed multiple client projects on Fiverr, delivering high-quality solutions tailored to client requirements.
- Demonstrated strong communication skills in understanding client needs, providing updates, and delivering projects within agreed timelines.

PROJECTS

✔ **MenaTCP**

https://play.google.com/store/apps/details?id=com.menatcp

A student learning app offering free courses, with features for chatting with instructors and posting, commenting, liking, and sharing thoughts like on social media applications.

✔ **NameMaster**

https://play.google.com/store/apps/details?id=com.namemaster

This application is currently deployed in internal testing mode.
Developed a name-guessing game to help users learn company employee names, featuring three different games with scoring mechanisms.

✔ **Azgarty**

Developed a MERN stack client application that merged a Unity game with refer-and-earn features, including tournaments and prizes. This application was **previously deployed** on the App Store but has now been removed by the client.

✔ **Digital Tasbeeh**

Developed an Islamic app for Duas, Tasbeehat, Namaz, and Quran Pak, including a feature for tracking tasbeehat.

✔ **Study Buddy**

Developed a kids' learning app with multiple choice questions, matching columns, and a parent portal for adding children and tracking their activity and progress.

✔ **Yuzu**

A multi-service booking application with Firebase authentication and profile management, using Google Maps for location-based bookings.

✔ **Pedometer**

Implemented precise fitness tracking features, allowing users to monitor their steps, calculate calories burned, and measure distance covered based on user body measurements.

EDUCATION

Comsats University Islamabad | Sep 2020 – Jun 2024
Bachelor of Computer Science
